## EcoPro Seascape - The New Era in Quality and Comfort

EcoProDivers' "Seascape" in the Maldives reflects a new era in quality and comfort - a four deck liveaboard that masterfully blends eco-friendly practices with upscale amenities.

This vessel, designed for both highest comfort and sustainability, features spacious, elegantly appointed cabins with stunning ocean views, each equipped with modern, eco-conscious amenities. Onboard, guests can enjoy a lavish top deck with a Jacuzzi and a relaxation area, perfect for soaking in the Maldivian sun or stargazing.

Diving with Seascape is an exquisite highlight, offering a state-of-the-art liveaboard and the most breathtaking underwater locations in the Maldives. The cuisine served on the Seascape emphasizes sustainability, with a focus on organic, locally sourced ingredients, prepared by expert chefs to create a fusion of traditional and international flavors.

Throughout the vessel, the use of energy-efficient technologies minimizes environmental impact, reflecting a deep commitment to preserving the marine ecosystem. The Seascape provides a unique blend of high comfort and eco-consciousness, making it an ideal choice for travelers seeking an indulgent yet responsible diving adventure in the Maldives.

### Because we care

- Drinking water production with reverse osmosis and mineral filter system
- Refillable aluminum drinking bottle
- Eco-friendly shampoo and shower gel
- Bamboo straws
- Beach clean-ups
- Sorting out collected plastic and forwarding it to PARLEY Maldives for recycling
- Support and cooperation with research organizations such as MANTA TRUST, MALDIVES WHALSHARK RESEARCH PROGRAMME and SAVE THE BEACH.
